PlusTrac™
Our Program, Your Guarantee

Program Specifications

PlusTrac AED Program Management ensures that when time is critical, your AEDs and the people responsible for them are ready to save a life. The online interface logs AED, consumable, and rescuer training status, and alerts users when something must be fixed or updated. Legal and regulatory compliance are also handled by PlusTrac.

Readiness

|	
Alerts/Notifications	E-mail alerts and notifications sent 90/60/30 days prior to pad and battery expiration
Tracking/Reporting	E-mail reminders, reports, and dashboard charts prompt for required manufacturer/regulatory maintenance

Compliance

Medical Oversight	Medical Director (physician) assigned to provide, review, and approve rescue protocols
Agency Notification/Registration	Completion and submission of all agency notifications/registrations
Online File Cabinet/Resource Library	Access to online library of legal and regulatory requirement documents
Compliance Guarantee Documentation	Develop and maintain all documentation needed to meet and exceed local requirements for Good Samaritan protection, including statement of indemnification

Support

|	
Customer Support	Immediate-response online chat, telephone customer support, same-day e-mail, or Help Desk ticket system
Data Entry/Batch Upload	Supported data entry/batch upload of all AED program data
FDA/Manufacturer Recall Alerts	Device-specific notifications by serial number entered into PlusTrac and sent by e-mail

CheckAED™ Mobile App
Available on Google Play and in the App Store

Check AED

Ready and Compliant

AEDs, while easy to use, require ongoing management and inspections to make certain they are ready and compliant. A well-designed AED program includes checking and maintaining your devices according to manufacturers' guidelines and local regulations.

Two Clicks Away

Customers who have purchased PlusTrac AED program management can now log into their account using ZOLL's CheckAED mobile app on their iPhone or Android to record the routine inspection from their web-enabled mobile device. With just two clicks and fewer than 30 seconds, we can guarantee your compliance and readiness to use an AED right from the palm of your hand.

Contact us and discover how PlusTrac provides the peace of mind that comes with knowing your organization is fully prepared to battle sudden cardiac arrest.
