

ZOLL®

ZOLL PUBLIC SAFETY

For more than 25 years, ZOLL has designed products that support first responders, medical personnel, and everyday rescuers in times of crisis. Every idea, design and innovation at ZOLL is guided by our singular focus: empowering you to act with confidence and to achieve the best possible outcome for victims.

With ZOLL Public Safety solutions, hope is in your hands.

HOPE IS IN YOUR HANDS

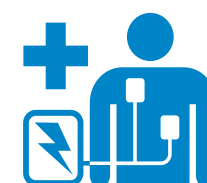

Empowering You With The Confidence To Act

AEDS | RESCUE SYSTEMS | RESCUE READY® SERVICES

You can't predict the next medical emergency, **BUT YOU CAN BE PREPARED.**

SAFEGUARDING THE PUBLIC

We're committed to providing intuitive and intelligent safety solutions in every public space around the world. Everything we do is designed to enable bystanders to act quickly, appropriately and with confidence in medical emergencies. Whether it's using an AED for the first time, administering CPR or treating a life-threatening injury, our products provide step-by-step coaching and feedback to help save lives.

CPR plus early defibrillation can **more than double the rate of survival** from out-of-hospital cardiac arrest.³

“

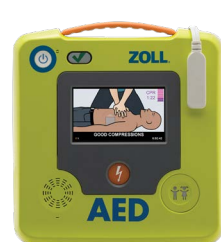

“I am very lucky that this event happened at my workplace where we have staff that are well-trained in first aid and an AED onsite. The ambulance staff and doctors made it very clear that in all probability I would not be alive today if the AED had not been onsite.”

Jeff Cox, SCA Survivor,
New Zealand

”

AEDS

RESCUE SYSTEMS

AEDs: Designed for Unexpected Heroes™

ZOLL AEDs support rescuers with real-time feedback technology that guides rescuers through high-quality CPR compressions, critical to helping a sudden cardiac arrest (SCA) victim. With over 1.5 million installed worldwide, ZOLL AEDs are trusted by safety leaders because they are smart, reliable and ready for the rescue.

Mobilize Rescue Systems™: For Those Who Won't Stand By

These innovative systems of modern medical supplies paired with an interactive instructional app guides untrained bystanders to help with critical injuries such as severe bleeding, trauma, seizures, choking, hypothermia and more.

Rescue Ready® Services: Life Depends on It

Our comprehensive program management solutions ensure that safety equipment and trained responders are ready when needed. From tracking consumables to medical direction and addressing compliance with local regulations, you can count on ZOLL Rescue Ready® Services.

“

“We got there with the AED, we administered one shock, and revived her. Because we were equipped with an AED, she survived.”

Chuck Kelley, Chief of Police
and Fire for Stone Mountain Park

”

In the blink of an eye, you could find yourself witnessing a medical emergency. The faster care can be provided, the better the outcome. ZOLL Public Safety solutions empower bystanders to respond with confidence. Our best in class rescue technologies feature integrated, real-time guidance and instructions to help you every step of the way.

An estimated **30,000 traumatic deaths** could be prevented each year with increased access to trauma care.¹

More than 350,000 cardiac arrests occur annually outside of a hospital setting.²

NOT ON YOUR WATCH

PEACE OF MIND THAT YOU ARE PREPARED

Our customers invest in our technology because they truly care about making the places we live, work and play safer for people. By installing ZOLL AEDs and Mobilize Rescue Systems, organizations can have peace of mind knowing they are prepared – and are preparing others – to help during critical medical emergencies that can become fatal during the average 9-15 minutes it takes for an ambulance to arrive.⁴

“

“The Mobilize unit definitely gave me courage to be able to do what we had to do, in order to help someone that was really in need.”

Chris Culver Director of Baseball & Softball,
Pinnacle Athletic Center

”
